Volunteer Opportunities*

United Family Services Speakers Bureau

Do you enjoy meeting people? Do you have a gift for public speaking?

Consider joining the United Family Services, Mooresville Lake-Norman Speakers Bureau. Members of the Speakers Bureau educate Lake Norman residents about United Family Services' programs and services by displaying agency materials at community events and answering community members' questions.

Volunteers would be required to complete a two hour training to learn about United Family Services, and then to shadow a staff member or experienced volunteer at one event.

If you have a special passion for Domestic Violence Prevention and Education, you may choose to receive additional training to learn about the dynamics of domestic violence, the different tactics used by batterers, and how to help victims find the support and assistance they need.

Once volunteers have completed training, they will be asked to attend at least two events each year.
